Van Epp's Block, Main St. : Dixon, Ill

—Nathan Underwood is home

—Mrs. Geo A Morris is in Chicago for a few days.

—Our ball club is playing in Mendota this arternoon.

—William Knapp and sister, Emma, are in LaSalle visiting.

—Arthur and Amos Strong are visiting with a sister in Milwaukee.

—Miss Grace Parmley, of Rochelle, is visiting relatives in this city.

—Remember the lawn sociable at J. H. Todd's residence this evening.

—Mr. and Mrs. R. L. Morton and son, Stratford, drove to Polo to-day.

—Mr. and Mrs. Leander Hess start this evening for a two weeks' visit at Cincinnati.

—Miss Amy Woodyatt returned last evening from Chicago much improved in health.

—The June now closed will go down in history as the month of storms and hot weather.

—As this is now a free delivery post office two cent stamps are required on all drop letters.

—C. A. Wetherbee, of Sterling, took dinner at the Nachusa House to-day with S. H. Bethea.

—Miss Bessie Pitcher has arrived home from college at Notre Dame, Indiana, for a summer's vacation.

—The Dixon relief committee for the Sublette sufferers are at work and receiving fine encouragement.

—J. H. Stewart and wife, of Dement Town, will spend the fourth at their old home in Whiteside county.

—The carriers of the postal service with their new uniforms give our city a real metropolitan sort of an air.

—Scott Earl, of Grand Detour, can be found clerking behind the counter in J H. Morris & Son's grocery store.

—J. S. Baum, an attorney from Galena, was here yesterday. He is a son of the Reverend Baum, a minister of Dixon in the "fifties."

—Packing in ice and stimulants by hypodermic injections appears to be the treatment in Chicago for patients afflicted with sunstroke.

Dixon has raised the sum of $6,500 for the removal of a new shoe factory to that city. Dixon is going ahead rapidly.—*Fulton Journal.*

—James P. Dewey, of Inlet, was brought to this city by George Stainbrook yesterday morning and pronounced insane by Judge Farrand's court.

—Miss Geneva McCoil, of Logan, Iowa, was here yesterday visiting at the residence of J. H. Cropsey. She is principal of the Fairfield, Nebraska, High school.

—Rock Falls News: Dixon is after another factory. She has raised $6,500 for the removal of a new shoe factory to her limits. We like to see our neighbors prosper.

When people are overcome with heat they should not be treated as drunk.—*Inter Ocean.*

We should remark It is not just the thing to drag him into an alley and leave him to die.

—Rev. Leete, of Rockford, pleases the people by speaking well of nearly all games. He likes an honest horse trot; dancing and cards "go" at times, and he thinks billiards an amusement in itself quite free from harm

—A young man named Pendergast met death by drowning at Belvidere Sunday night. He was taken with cramps while swimming. He left an insurance policy of three thousand dollars to his sweetheart, a Belvidere girl.

—By the yearly adjustment of post office salaries Dixon, Franklin Grove and Rock Falls have been increased one hundred dollars each. DeKalb has been reduced two hundred dollars. The other towns in this vicinity remain as before.

—Our city mail carriers started out this morning dressed in their new gray suits, uniforms furnished by C. A. Todd. There was considerable delay this morning caused by the newness of the business It will all work out smooth in a few days however.

—Only one marriage license has been granted at the County Clerk's office during the past week, and that to Jacob K Eshleman and Miss Lizzie B. Sides of Sterling, aged 44 and 48 respectively. The little god of the bow and arrow was bushed on account of the hot weather.

—At the Democratic county convention at Amboy the following ticket was placed in nomination: For Judge, Charles F. Preston, Paw Paw; Sheriff, George E. Young, Amboy; Treasurer, Michael Maloney, Dixon; Superintendent of Schools, J. C. Edwards, Amboy; County Clerk, Oscar V. Emmert, Nachusa.

—E. B. Raymond, W. E. Appleford, and general secretary P. Bevis of the Y. M. C. A. here, assisted by F. H. Burt, assistant state secretary, held a local conference at Polo Sunday. The Polo people are very much interested in the work for young men and arranged to hold another young men's meeting in the near future.

Mayor Peirce, of Hoopeston, Ills., says that recent reports have done him an injustice. He is under indictment for selling liquor without paying the special tax, although he was elected mayor as a Prohibitionist. He says he only sold the stuff medicinally, and not as a beverage.

A western man is said to have invented a machine for putting on wall paper. If the average housewife can operate the thing, and do away with the average paper hanger, blessed will be that man's name among women.

—General Henderson, the member of Congress from this district, sends us the report of the chief engineer to the Secretary of War, on the last Hennepin Canal survey, including a map of the route of canal and feeder and plans of locks and aqueducts. A remarkable fact is noticeable in this report that the estimates now do not vary more than one hundred and five thousand dollars from other surveys This will silence the talk by opponents of the canal that much more than the amount of the estimates will be required to build the canal. Six and a half million dollars will cover all expenses.

In speaking of the feeder the engineer in his report says that the government will "purchase the water power at Dixon;" the flour mill, etc. A new dam will be built with a guard lock and controllable sluice way for navigation and water supply. To avoid complications of the canal traversing the river front and crossing the streets of our city it is proposed to take a portion of the river for the canal; building a wall for the north side of the canal and thus save expense of any street bridges. The guard lock proposed will allow navigation from the feeder into the pool of Rock River created by the dam. The cost of the work here at Dixon is estimated at three hundred and fifty-two thousand dollars. The feeder is to be navagable and of the same dimensions as the main line, and the route is the same as that surveyed in 1882. From Dixon it follows the meanderings of Rock river until it reaches a point near and west of Nelson station when it takes a more southerly direction, passing Rock Falls a little over three miles to the east.

EDITOR TELEGRAPH:—Now that free delivery has been established in our city by the Postmaster General, it is fitting that we look around to see if we are prepared for it. I understand that one requisite is that the house must be numbered. We have an ordinance providing for that. But this ordinance has been misconstrued.

It says: "That every twenty-five feet frontage (exclusive of Streets and Alleys) in the City of Dixon, for the purpose of numbering, shall be deemed a lot." * * * "There shall be fifty numbers to each block *whether there are lots to use them all or not.*" * * * "On streets running North and South, the odd numbers shall be on the West side, the even numbers on the East side, and on all streets running East and West the odd numbers shall be on the North side and the even number on the South side."

Starting at the South-east corner of Galena and River streets with number one hundred, that being fixed by the ordinance, we find not only that we have only fifty even numbers for that portion of the east side of Galena street between River and First street's but, also that we must assume that that block used all of those even numbers. Therefore when we reach the southeast corner of Galena and First streets, the number of that lot must be 200.

This system will, I believe, supply with numbers all lots in the city, while the system adopted by some of our citizens will give to a large number of lots improper numbers as there are several blocks in the city that are over three hundred and fifty feet long.

Again there are in this city two streets named Crawford and two named Short. This should receive the attention of the council. L.

—The "Paw Paw Times" has this to say of the cyclone phenomena:

Wm. McMahan, whose house stands within sixty rods of the northwest line of destruction watched its approach and passage; it was of the funnel shape, whirling and bounding along with a hissing or buzzing sound—swooping the earth and bounding from it alternately; he saw no manifestations of electricity in the rolling, boiling, steaming cloud. The portion nearest the earth was very dark, the upper portion lighter; he could see sticks and other articles on the outer side, flying about and dropping to the ground.

Mr. James Blee, whose house was destroyed, saw the storm at some distance, but could not make out its character; he was satisfied that it was dangerous and sent his family to the cellar; he remained in the cellar door, which faced the coming demon, and anxiously watched its approach; so full of rain and fog was the atmospher, not till within ten rods of him, could he distinguish its outlines and true character: at that distance it enveloped some trees, and apparently broke open, giving him a view of the inside; while the outside had the appearance of smoke escaping from an engine, the opening showed great electric disturbance, which was indicated by a constant emission of sparks and flashes Henry Potter, who remained outside near the corn crib, corroborates Mr. Blee's statement. There was a strong sulphurous odor during and some time after the cyclone. It is a curious feature that no where along the track is the grass or grain removed, nor do they at any place have the appearance of having been burned or scorched. Another strange feature is the fact that on neither side of the storm was there any greater agitation of the atmosphere than in ordinary thunder storms.

—It is a singular fact showing the inclination of the American editor to kick that the New York Herald, a leading Democratic paper, speaks sneeringly of all the prominent presidential candidates of its party. We copy from a recent editorial:

"We read stray paragraphs in Democratic newspapers as to the probable nominee of the Democratic party for the next Presidency and note the paucity of names —Mr Cleveland, of course; Governor Hill, with a whack-row-de-dow following; that fine old bit of well seasoned wintergreen, Palmer, of Illinois, an ex-republican, and from Indiana another ex-republican named Gray, who seems to be as grotesque a figure in Western politics as his prototype, Elijah Pogram

This is a barran list of leaders of a party which used to enter a convention led by the giants like Douglas, Cass, Bentan, Calhoun, Van Buren, Marcy, Seymore, Chase and Randall. And Democrats may well ask. "Where are our leaders?"

FEDERAL CONTROL.

General Debate on the Election Bill Ended.

BURROWS CLOSES THE LONG TALKS

Coleman of Louisiana Declares Against the Measure—Congress Fails to Get the Appropriations Through on Time—A Statement of the Status of Business—Some Figures from the Census—Frank Lawler's Latest Idea—No Adjournment Before August.

WASHINGTON CITY, July 1.—The general debate on the federal election bill was brought to a close in the house yesterday. Herbert of Alabama opened the fight, and, referring to the reconstruction period, said that the result had been that the negro had been taught to distrust the southern white man, and during that period the southern states had been represented in congress by Republicans. Now they were represented by Democrats, and hence the necessity for a national election law. If the south were allowed to work out the problemn for itself, the time would come when the negro, being educated as the white man was, would be able to take care of himself as a tax-payer and citizen. This bill would have the effect of arraying race against race again in the south.

Houk Quotes Springer.

Houk of Tennessee said that it had been his conviction since his earliest reading of the constitution that it was a paradox to leave to the states the control of the election of national officers. He quoted from a report made by Springer in a contested election case, in which he claimed that Springer laid down the exact principle involved in the pending bills. That the laws of every state of the Union should conform to the law of the land. The objection to the bill was not that the colored man was black, but that he voted a Republican ticket.

Another Republican Opposes.

Coleman of Louisiana said that he was a Republican both from conviction and from principle; a southern man by birth, education and association. He was apposed to the enactment of the federal election law at this time, and, notwithstanding the fact that the promoters of this measure aimed to secure the great desideratum of a free ballot and a fair count, he did not think that this was a proper time to make this political experiment. He was as certain that trouble and bloodshed would follow the enactment of the legislation, and that the law would fail in its purpose, as he was that he would vote against it in this house.

An Expensive Political Blunder.

A federal election law would be an expensive political blunder; the public money could be used to greater advantage in paying the honest claims of the people of the south, in reimbursing the depositors of the Freedmens' Saving and Trust company, in constructing levees on the Mississippi river, and in educating the children of the south, black as well as white. Pass a federal election law and the men now ready to separate from the Democratic party would get back into what they were told was the white man's party, rather than risk negro supremacy.

Burrows Closes the Debate.

Finley of Kentucky, Waddill of Virginia, and Hopkins of Illinois spoke in favor of the bill, and Turner of Georgia, Tracy of New York, Outhwaite of Ohio, and Chipman of Michigan opposed it, and then Burrows of Michigan rose to make the final speech of the general debate. He said that when the popular vote was tampered with representative government existed but in name. If there was anything in the bill that overstepped the bounds of the constitution let it be stricken out, but let all stand together in maintaining a free ballot and honest count as the only safety of the republic. He could forgive a man who, in the hour of passion, or in the hour of revolution, fired on the flag, but that man who crawled to the ballot box where reposed the latest born offspring of the sovereign will and took its life was an assassin. He wanted to pass a measure which would proclaim to the people that the government had at last made true the declaration of the martyred Lincoln that this was a government of the people, by the people and for the people.

THE CENSUS MONTH ENDED.

Superintendent Porter Congratulated by Professor Walker.

WASHINGTON CITY, July 1.—Yesterday the period for taking the census ended. By a coincidence it was also the birthday of Superintendent Porter. Among other pleasant incidents of the day was a letter of congratulation from Professor Francis A. Walker, the superintendent of the last census. He expressed the opinion that the census just closed was a great success. Mr. Porter says that information received from all portions of the country indicates that the work has been going along, and that there has been no serious hitch.

Ninety Per Cent. Completed.

Mr. Porter estimated that of the 43,000 enumeration districts into which the country is divided, 90 per cent. have been completed. The returns are not yet in, even of the cities and towns where the census taking practically was ended the 18th of June. But they are retained by the supervisors so as to make all necessary changes, and when fully completed are sent to the census office, where the rough count is in progress.

Some Figures from the West.

Approximate figures from a number of western cities and towns are as follows: Illinois—Bloomington, 20,000; Cairo, 14,000; Decatur, 18,000; Galesburg, 16,000; Quincy, 31,230; Springfield, 26,500. Indiana—Crawfordsville, 7,000; Evansville, 51,000; Indianapolis, 110,000; Madison, 9,400; Richmond, 15,500; Terre Haute, 32,000. Michigan—Adrian, 10,000; Battle Creek, 15,500; Grand Rapids, 65,000; Lansing, 13,500; Saginaw, 50,000. Wisconsin—Bay City, 32,200; Eau Claire, 21,500; La Crosse, 32,000; Madison, 14,000; Milwaukee, 200,000; Oshkosh, 20,000; Racine, 23,500; Sheboygan, 18,000. Iowa—Burlington, 27,300; Council Bluffs, 21,400; Davenport, 30,000; Des Moines, 54,000; Keokuk, 14,000; Sioux City, 33,000.

THE CONDITION OF BUSINESS.

A Statement Showing the Status of Appropriations in 1888 and 1890.

WASHINGTON CITY, July 1.—The consideration of the national election bill was suspended in the house yesterday in order to enable that body to pass a joint resolution providing for the support of the government in cases where action on appropriation bills has not yet been had. In moving the resolution Cannon made a statement of the status of the appropriation bills, as follows: In the hands of the president, five—army, military academy, navy, pension and postoffice; agreed on in conference—District of Columbia; in conference—diplomatic and consular, fortification, legislative; passed senate yesterday—agricultural; pending in senate—river and harbor, Indian; in senate appropriation committee—sundry civil; not reported—deficiency.

How They Stood in 1888.

In response to a request by Dockery Cannon stated that the following was the condition of the appropriation bills, June 30, 1888 (nder Democratic rule in the house): In the hands of the president—Indian, military academy, pensions; in conference—agricultural, diplomatic, district of Columbia, legislative, postoffice; pending in the senate—army, river and harbor; pending in senate committee—navy, sundry civil; not reported to the house—fortification, deficiency.

APPROPRIATIONS EXTENDED.

Congress Has to Provide for Failure to Provide Money.

WASHINGTON CITY, July 1.—The senate yesterday again postponed the eulogies on the late S. S. Cox, because of the absence of Voorhees. There was some talk about precedence in business, and Morrill said he would call up the tariff bill at the earliest opportunity, but would not interfere with appropriation bills. The agricultural bill was pased, after amendments appropriating $50,000 for sorghum sugar culture and $25,000 for investigating the habits of insects had been agreed to. The Idaho admission bill was then taken up and Cullom advocated its passage. The bill was then laid aside and the house joint resolution continuing the annual appropriations for thirty days where appropriation bills have not been passed was agreed to. The senate adjourned.

In the house Dickerson, successor to Carlisle, presented his credentials and took his seat. The debate on the election bill was resumed, and general debate closed, Burrough of Michigan making the closing speech. Consideration of the bill was then suspended and a joint resolution extending the appropriations for thirty days, to provide for the failure of appropriations to pass in time, was adopted. The election bill was again taken up and Lehlback offered an amendment to make the law, as he said, uniform all over the country. Before a vote was taken the house took recess to 8 p. m. At the night session the time up to adjournment at 11:35 was taken up with speeches for and against the bill.

IT WILL PASS IN THE SENATE.

Ransom Tells the House Democrats to Beat the Election Law.

WASHINGTON CITY, July 1.—"If you don't want the national election bill to become a law you must beat it in the house," was the word Senator Ransom of North Carolina and his colleagues sent to the Democrats in the lower branch of congress. And he added this information: "There is not a Republican senator who will speak or vote against it". This message was sent in verbal form after the Democrats in the senate had made sufficient inquiry to lead them to believe that their proposition to hasten adjournment by the speedy consideration of all other general measures if the election bill was not taken up at this session would be rejected.

Why Ewart Is in Opposition.

For a while it looked as though there would be quite a number of southern Republicans in the house who would vote against the election bill, but debate thus far has demonstrated that there will be no Republican votes against it from general principles. Ewart of North Carolina, it is said, opposes the bill not because he thinks it unwise in any respect, but because he regards it as an administration measure and he imagines himself out of joint with the administration.

Lawler Is Down on Livery.

WASHINGTON CITY, July 1.—Frank Lawler, meditating at the seaside, thinks he notices a tendency toward livery that he does not like in the republic, and he is preparing a bill which he intends to introduce in congress for the purpose of counteracting the tendency. His purpose is absolutely to prohibit the wearing of livery in the United States. Coachmen and the servants of private individuals will not be permitted any longer to "make English flunkies of themselves" by wearing the distinctive livery of their employers.

Adjournment Rests with the Senate.

WASHINGTON CITY, July 1.—Speaking on the subject of adjournment, Speaker Reed said yesterday: "The question rests entirely with the senate. For the first time in many years the house is ahead of the senate with the public business. We over on this side, could wind up the session next week, but, of course, we shall not be able to do so." Nearly all senators agree in thinking that adjournment cannot take place before August.

Raum Wants Nearly a Million.

WASHINGTON CITY, July 1.—The speaker laid before the house yesterday a letter from the secretary of the treasury transmitting a letter from the commissioner of pensions requesting an appropriation of $931,000 for additional clerical force, which he says will be necessary for the prompt execution of the dependent pension bill.

A Busted Base Ball Club.

WASHINGTON CITY, July 1.—The Washton base ball club yesterday by its directors made an assignment to A. W. Coleman for the benefit of its creditors. The assets of the club are practically nothing, while its liabilities foot up $33,000. The salaries of the players have not been paid since the first week in June.

The Decrease in the Debt.

WASHINGTON CITY, July 1.—It is estimated at the treasury department that the monthly statement for June will show a decrease in the public debt of more than $18,000,000.

World's Fair Matters.

CHICAGO, July 1.—At yesterday's meeting of the national commissioners of the World's fair, a motion to create two managing officials was voted down, and the action of Saturday in favor of a single director general confirmed. A proposal was received from George M. Pullman offering a site for the fair near Pullman containing 640 acres, but the commissioners decided that they could receive site proposals only from the local association. The commissioners provided for the appointment of an executive committee of twenty-six and for seventeen other standing committees.

At the meeting of the city council last night the report of the council committee on site in favor of the Lake Front was deferred.

SEETHING FLAMES.

Five Acres of Fire Destroys an Oil Refinery,

AND ROASTS THREE YOUTHS ALIVE

Remarkable Origin of the Disaster—Gas Let Loose Quickly Ignites, Causing an Explosion and a Terrific Conflagration—Three Boys Caught in the Flames and Roasted While Running Away—One Man Fatally Scorched and Two Others Seriously So.

LOUISVILLE, July 1.—A remarkable fire broke out in the Standard Oil refinery, at Fifth and C streets, yesterday morning at 8:45 o'clock, and in a short time five acres of flame was licking up the valuable property. The refinery is on the east side of the Louisville and Nashville railroad track, but the tanks are scattered along it on both sides. On last Saturday a tank of crude oil came in on a flat car from Cleveland, and it was to be turned into the refinery vats. Some of the workmen thought the iron tank was too hot for such a thing to be done with safety. After consultation it was postponed in the hope that the weather would by Monday grow cooler. It did not prove so, however, and it became necessary to run the oil out of the car-tank into another one in the yard.

Let Loose a Volume of Gas.

Inspector Skene took John Pettigo and another workman, whose name could not be learned, with him and they climbed on the car. They mounted the manhead and were about to unscrew the cap when they felt that there was a tremendous pressure from the inside against it. At first they decided not to open it, but they finally changed their minds and did so. In an instant there was a dull puff as the vapor escaped, filling the air all around.

Blows the Tank to Pieces.

The gas, as is known, is heavier than the air, and it sank to the ground, spreading out all over the locality, and moving with the wind. Almost in a twinkling it reached one of the sheds under which there was a fire. There was a flash as the inflammable vapor ignited, and immediately after there was a tremendous explosion. The tank was blown to pieces, and the hundreds of gallons of burning oil were scattered all over the great works.

Rapid Spread of the Fire.

A wall of fire 300 feet high and nearly 500 feet long, moved with lightning rapidity to the other buildings. In less time than it takes to relate it, the canning house, filled with thousands of gallons of canned oil, the cooper shop, carpenter shop, pump and engine houses, the filling and lubricating houses, the storage houses, the paint and glue houses, and 900 feet of platform were all ablaze and burned furiously.

Caught in the Seething Flames.

At the first intimation of the existence of the fire all the men who could started to run. Johnny Kline, however, stumbled and fell and his clothes caught fire. The men bravely returned to his assistance, but the fire that enveloped him could not be extinguished until he had been frightfully burned.

Three little boys, Daniel O'Neil, Andrew and John McDonald, were walking along the railroad track when the explosion occurred. They were slightly to the east of the tank, and the wind blew the blaze directly down upon them.

Horrible Race with Death.

Shrieking with pain, they impulsively jumped backward and into the clear space on the western side of the track. Their clothes were on fire, and they ran down the track with the bright blazes streaming after them. As soon as the bystanders recovered from the horrified shock occasioned by their awful condition, they pursued the three boys. Covering them with coats, they soon extinguished the flames, and laid them under a tree near by. When an attempt was made to remove O'Neil's clothes great pieces of his flesh peeled off his face and body at the slightest touch. He was conscious, and never uttered a cry.

The List of Casualties.

The following is a list of the casualties: Andrew McDonald, aged 12, badly burned about the breast and face—will recover; John McDonald, aged 14, literally roasted alive, can live but a short time; Dan O'Neil, aged 12, burned almost to a crisp, and will die; John Kline, aged 22, frightfully burned all over the body, and can't recover; Severen Skene, aged 41, terribly burned, but will recover; J. S. Pettigo, aged 45, badly, though not fatally burned about the head and breast; Andrew Yonkers, aged 18, slightly burned.

The money loss will be between $30,000 and $40,000.

Met a Horrible Death.

PITTSBURG, Pa., July 1.—Stephen Fogarty, a boiler tender at the Linden Steel works, met with a horrible death yesterday. He was standing upon a ladder making a connection with a steam pipe when a faulty steam valve burst in front of him. He was struck on the neck by the valve and escaping steam, and blown about fifty feet. He was dead when picked up. His head was almost severed from the body. He was 40 years of age, and leaves a widow with seven helpless children.

Their Mangled Bodies Found.

MARTINSBURG, W. Va., July 1.—Late Sunday night Israel Reiff, a well known distiller, accompanied by James Anheney, a farmer, left this place to drive home. Several hours later the mangled bodies of both were found at the foot of a high embankment. It is believed that they were thrown from their carriage and killed in a runaway accident.

Failure of a Louisville Firm.

LOUISVILLE, July 1.—Nathan Bensinger, furniture and carpets, failed Monday. It was one of the best known houses in Louisville, being established twenty-five years. Assets unknown. There were two houses in this city and several branches in the state.

Fast Horses at Chicago.

CHICAGO, July 1.—The winning horses at Washington Park course yesterday were: Inez, 1 mile, 1:48; Hindoo Lass, 1 mile, 1:45¾; Orderly, ⅝ mile, 1:03⅛; Hypocrite, 1¼ miles, 3:04¾; Rimini, 1 mile, 1:42¾; Workmate, 1 mile, 1:42¾; Hamlet, 1¼ miles, 2:07¼.

Gen. Marston Dangerously Ill.

EXETER, N. H., July 1.—Gen. Gilman Marston, the distinguished lawyer and war veteran, suffered a stroke of apoplexy Saturday, and is lying in an unconscious condition. Grave doubts are entertained of his recovery. He was 78 years old last August.

EXTRAORDINARY SURGERY.

A New York Doctor Grafts Brain from One Animal to Another.

NEW YORK, July 1.—Dr. W. Gilman Thompson, professor of physiology in the New York university and visiting physician to the Presbyterian and New York hospitals, has recently succeeded in grafting the brain of one animal upon that of another. His success opens the question of the possibility of the grafting of the brains of human beings. Dr. Thompson cut open the skulls of two large dogs and interchanged pieces of the brain tissue of each. On the third day both dogs were killed and the transplanted pieces of brain tissue looked normal, and in each case were firmly knitted together. The next experiment was with a cat and a dog. Three days later the cat was killed. The transplanted dog's brain was found where it had been placed, firmly adherring to the cat's brain.

Gave a Dog Some Cat's Brain.

He next procured a mongrel dog, opened his skull over the left lobe of the brain, and through the opening removed a small portion of brain tissue. A cat was simultaneously operated upon in the same manner and the brain tissue of the cat and dog were interchanged. The openings were closed and treated. The dog made a good recovery from the operation, although he was feeble for a few days. Subsequently he appeared normal in every way except the loss of vision. He was killed at the end of seven weeks, when the piece of transplanted cat's brain was found firmly adhered to the dog's brain, with the pia mater intact.

THE STRIKE AT EAST ST. LOUIS.

"Scabs" Have to Work Under the Protection of Armed Men.

ST. LOUIS, July 1.—Many of the freight handlers who returned to work in East St. Louis have been again induced to quit. They will hold out for the increase to $1.50 originally demanded. All the platforms are employing small forces of "scabs," who have been warned to quit work. The agents of the ten lines involved in the strike are becoming thoroughly alarmed. Application was made to Chief of Police Walsh for additional protection.

Making Incendiary Speeches.

He detailed a squad of officers to guard the yards, but they were deemed insufficient. Yesterday the superintendents united and through a private detective agency in this city secured a large force of armed guards and detectives, who are on duty in the freight houses. At their secret meetings the strikers have made a great many incendiary speeches, and it is feared that an attempt will be made to fire some of the freight houses on the east side.

Trying to Make a Trust-Law Proof.

NEW YORK, July 1.—The trustees of the sugar trust held their annual meeting yesterday, and issued a statement to the holders of certificates reviewing the reasons for the formation of the trust and its legal status. The statement goes into quite a lengthy review of the recent decisions of the various courts with regard to the North River company. The trustees are now considering the changes required, according to the court of appeals decision, by which the objections to the union of the sugar refineries can be overcome.

Spooner's Quiet Trip West.

WASHINGTON CITY, July 1.—Senator Spooner quietly left the senate the other day without saying where he was going. He took the limited for Chicago and inside of twenty seven hours was in his hotel in Milwaukee chatting with H. C. Payne, the king politician of the Badger state. Two hours later Spooner was on his way to Washington. In less than sixty hours he was back on Pennsylvania avenue and not a soul in Washington or Wisconsin knew of the trip except the senator and his friend Payne.

Womack Is Right To Be Wroth.

CHICAGO, July 1.—W. H. Womack is mad. He was selling a quilting attachment and patent hair-pin away down in Farron county, Tex., when two men placed revolvers against his head, handcuffed him, and placed him on the first train for Chicago, where he was brought under the idea that he was the long-lost Tascott. He was not Tascott, however, and the outrage is apparent when it is known that he is stranded in this city; that his arrest was authorized by nobody, and that he has no redress.

Wreck on the Northern Pacific.

HELENA, Mont., July 1.—A passenger train on the Northern Pacific plunged down a thirty-foot embankment, yesterday near Drummond, severely injuring twelve persons. A. M. Otto had both arms broken; Mrs. G. D. Howe, legs injured; James Slocum, legs and body injured; Mrs. A. Sine, internal injuries; her child, badly hurt. Seven others were less seriously injured. It is thought that some of the worst hurt will die.

Fatal Electric Storm.

COLUMBUS, O., July 1.—This city and vicinity was visited last night by a fierce electric storm. Lightning struck in fully fifty places in the city, but only two persons are known to have been killed. Campmann Stultz, a laborer, ran for shelter under a shade tree and was killed. William Wise, aged 17, was killed while standing in the door of his home on Gift street. A great many roofs and chimneys were damaged.

The Amalgamated Scale Signed.

PITTSBURG, Pa., July 1.—The committee representing the iron and steel manufacturers of Pittsburg and the committee representing the Amalgamated association, after a four days' conference, came to an agreement yesterday and the western Amalgamated scale with slight amendments was signed. Work will go on the mills without stoppage.

The Atchison Report.

BOSTON, July 1.—The gross earnings for May of the Atchison system, including the St. Louis and San Francisco, and one-half of the Atlantic and Pacific receipts, were $3,701,402, an increase of $890,921 over May of last year; the net earnings were $1,118,104, an increase of $453,035.

Her Doings Interest Him No More.

MADISON, Wis., July 1.—Yesterday Kate Sullivan, a notorious creature, was sent to prison for three years for immoral conduct, and the blow was so hard on her brother Jack, a man of 40 years, that he got on a drunk and suddenly died. There is a suspicion of suicide.

She Is Riding for Roubles.

ST. PETERSBURG, July 1.—Olga Labouniski, a young lady of high birth, started from this city yesterday to Odessa on horseback. Mlle. Labouniski, who is only 19 years of age, has wagered 50,000 roubles on the success of her trip.

Scaly Skin Diseases

Psoriasis 5 years, covering face, head and entire body with white scabs. Skin red, itchy and bleeding. Hair all gone. Spent hundreds of dollars. Pronounced incurable. Cured by Cuticura Remedies.

Cured by Cuticura

My disease (psoriasis) first broke out on my left cheek spreading across my nose, and almost covering my face. It ran into my eyes, and the physician was afraid I would lose my eyesight altogether. It spread all over my head, and my hair all fell out, until I was entirely bald-headed; it then broke out on my arms and shoulders, until my arms were just one sore. It covered my entire body, my face, head, and shoulders being the worst. The white scabs fell constantly from my head, shoulders, and arms; the skin would thicken and be red and very itchy, and would crack and bleed if scratched. After spending many hundreds of dollars, I was pronounced incurable. I heard of the CUTICURA REMEDIES, and after using two bottles CUTICURA RESOLVENT I could see a change; and after I had taken four bottles, I was almost cured; and when I had used six bottles of CUTICURA RESOLVENT and one box of CUTICURA, and one cake of CUTICURA SOAP, I was cured of the dreadful disease from which I had suffered for five years. I thought the disease would leave a very deep scar, but the CUTICURA REMEDIES cured it without any scars. I cannot express with a pen what I suffered before using the CUTICURA REMEDIES. They saved my life, and I feel it my duty to recommend them. My hair is restored as good as ever, and so is my eyesight. I know of others who have received great benefit from their use.

MISS ROSA KELLY, Rockwell City, Iowa.

Cuticura Resolvent

The new Blood and Skin Purifier and purest and best of Humor Remedies, internally, and CUTICURA, the great Skin Cure, and CUTICURA SOAP an exquisite Skin Beautifier, externally, have cured thousands of cases where the shedding of scales measured a quart daily, the skin cracked, bleeding, burning, and itching almost beyond human endurance, hair lifeless or all gone, suffering terrible. What other remedies have made such cures?

BRITISH POLITICS.

Caine's Experiment Likely To Be His Waterloo.

NO FRIENDS AMONG THE LEADERS.

Tories, Unionists and Home Rulers All Down on Him—Gladstone Writes a Letter Against Him—Lord Salisbury Gives Some Information About Heligoland—Why the Prison at Derry, Ireland, Has No Chaplain—A Piece of O'Brien's Wedding Cake on Exhibition.

LONDON, July 1.—Gladstone has written to the Liberal electors of Barrow-in-Furness expressing his belief that the contest for that seat lies between Wainwright, Conservative, and Duncan, Liberal. He therefore advises the electors to support Duncan, as votes cast for Caine will only assist the Tories.

A Chance for the Tories.

The prospects that the Tories will win the seat are brightening hourly. Lord Randolph Churchill has contributed a large measure of assistance to the Conservative candidate both by speeches and advice to the election committee and will probably make another speech in his favor. Editor O'Brien delivered a speech in behalf of the Liberal candidate, Duncan, last night. In the course of his remarks he dwelt upon what he called colossal assurance of Caine in asking the support of the Liberal electors while his treachery to the Liberal party and his insults to its leaders were yet fresh in the minds of the people. The Liberal-Unionists also have been advised by their leaders to refuse him support.

CESSION OF HELIGOLAND.

A Liberal Lord Wants to Know, You Know, and Salisbury Informs Him.

LONDON, July 1.—In the house of lords last night Roseberry asked whether the government would assist the inhabitants of Heligoland desiring to remain British subjects to settle in other parts of Great Britain, and also whether Germany's right to fortify the island was restricted. The cession of English territory, he declared, was contrary to English usage [cries of "hear"!], and he hoped the government would carefully consider the wishes of the people inhabiting such territory.

The Premier's Reply.

Salisbury replied that he was not aware that Goschen, chancellor of the exchequer, was in possession of funds that could be used to settle the islanders in other parts of the empire. He did not think such a measure would be in conformity with the wishes of the people of Heligoland. Every security had been taken to protect their interests. The government had done its best to ascertain the wishes of the islanders, although it is not taken a plebiscite. The government had not suggested any limit to Germany's right to fortify the island.

TROUBLE ABOUT A PRIEST.

The Irish Troubled Because There Is No Priest in Derry Jail.

LONDON, July 1.—Much feeling exists in Ireland over the fact that there is no Roman Catholic chaplain in Derry jail. The Rev. Dr. O'Doherty, the former chaplain, was dismissed from his office, it is claimed, because he refused to attend an inquiry held for the purpose of eliciting facts in relation to the National league, the reason of his refusal being that such questions ought not to be addressed to him as a Roman Catholic clergyman.

The Government Thought Differently.

The government assumed that the question did not involve any such violation, and did not come within the scope of priestly exemption, and removed Dr. O'Doherty from his chaplainship. The vacar capitular of the diocese upheld Dr. O'Doherty, and has declined to appoint any chaplain in his place. Consequently the Roman Catholic prisoners in the jail have been without the consolations of religion for several months. Balfour claims to have minimized the evil as far as possible, by sending the Roman Catholic prisoners to other jails.

O'Brien Remembers His Rescuer.

KINGSTON, Ont., July 1.—Hundreds of Irishmen went to Maurice Hogan's house Sunday to look at a piece of William O'Brien's wedding cake. Several years ago when O'Brien visited this city, he was attacked by a mob, and by strategy Hogan saved his life. Last Saturday Hogan received a piece of O'Brien's wedding cake, sent with O'Brien's compliments.

Run Down by His Victim's Mother.

NEW YORK, July 1.—Francisco Sapioni, aged 55, who arrived here on the steamer La Bretagne Saturday, was arrested last night for the murder of Dominico Satanazi in Italy last February during a quarrel. Sapioni escaped to France after the crime, but the murdered man's mother kept track of him and when she learned that he was going to America she wrote and informed her brother in this city, who put the police on the watch. Sapioni resisted arrest, but was overpowered.

Will Disfranchise the Blacks.

NEW ORLEANS, July 1.—A compromise has been reached in the lottery fight. The house bill is to be passed in the form of a constitutional amendment to be voted on at the next state election in 1892, but a primary election is to be held before that time, at which only whites shall vote on the question of accepting or rejecting the lottery proposition. If the vote is against the lottery the company will withdraw its offer and leave the state when its charter expires.

Perhaps This One Will Stand.

SPRINGFIELD, Ills., July 1.—Ferdinand Volbrecht, of Alton, has been re-indicted for aiding in the procuring of fraudulent naturalization papers, and the case will be tried by the United States circuit court. Judge Allen, of the district court, quashed the indictments heretofore found against the accused for the same offense.

Two Prominent Men Drowned.

MANKATO, Minn., July 1.—Hon. P. A. Foster and Robert Lind, both prominent citizens, were drowned Sunday afternoon while bathing. Neither of them knew how to swim, and it is supposed that one was drowned while trying to save the other. Foster was an ex state senator.

Two Counterfeiters Sentenced.

SPRINGFIELD, Ills., July 1.—William Kestor and Leigh Ottie Fisher, of Danville, heretofore convicted of making and passing counterfeit coin, were yesterday sentenced by the United States court to the penitentiary, the former for one year, the latter for eighteen months.

The Base Ball Players.

CHICAGO, July 1.—The scores on the ball field yesterday were as follows: League: At Cincinnati—Cincinnati 6, Brooklyn 8; batteries—Foreman and Baldwin, Terry and Daly. At Pittsburg—Pittsburg 4, New York 7; batteries—Baker and Decker, Welch and Murphy. At Cleveland—Cleveland 2, Boston 9; batteries—Beatin and Zimmer, Clarkson and Bennett. At Chicago—Chicago 9, Philadelphia 4; batteries—Hutchinson and Kittredge, Smith and Clements.

Brotherhood: At Buffalo—Buffalo 2, Brooklyn 4; batteries—Haddock and Mack, Sowders and Daily. At Cleveland—Cleveland 14, New York 10; batteries—Bakely, Gruber and Sutcliffe, and Crane and Brown. At Pittsburg—Pittsburg 19, Boston 7; batteries—Staley and Fields, Kilroy and Kelly. At Chicago—Chicago 7, Philadelphia 4; batteries—King and Farrell, Sanders and Milligan.

Western: At Minneapolis—St. Paul 5, Minneapolis 8; at Milwaukee—Des Moines 8, Milwaukee 13.

Dudley Summoned to Testify.

NEW YORK, July 1.—Col. W. W. Dudley has been summoned to testify in the suit of Talmadge & Martin against the Republican league for $12,000, claimed to be due for campaign printing.

Refused to Sign the Scale.

POTTSVILLE, Pa., July 1.—The Fishback rolling mills, of the Pottsville Iron company, has refused to sign the wage scale, and 880 men have struck.

The Weather We May Expect.

WASHINGTON CITY, June 30.—The following are the weather indications for thirty-six hours from 8 p. m. yesterday: For Illinois—Fair weather, continued high temperature, except showers and slightly cooler in extreme northern portions; northwesterly winds. For Michigan and Wisconsin—Fair weather, stationary temperature, except showers and slightly cooler in lower Michigan; variable winds becoming northwesterly. For Iowa—Fair, slightly warmer weather; variable winds.

An Umbrella Entertainment.

A Philadelphian has an umbrella bought at the Paris exposition with which he has been alarming, or amusing, as the case may be, his friends.

One evening he was walking with a companion along a lane near his surburban residence. It was raining slightly and the umbrella was hoisted. While they were in deep conversation a noise like the firing of a toy pistol was heard, followed by a slight whizzing sound as if some light body was rushing rapidly through the air. In a second a pretty piece of fireworks burst overhead and sent down a glittering shower of multi-colored fire. The friend made a startled movement, peered cautiously around in the darkness and remarked that it was a queer sort of a night for anybody to choose to give a pyrotechnic exhibition out in the country. The owner of the umbrella assented and they resumed their walk.

Pretty soon there was another explosion, and a second rocket burst high up in the air. A third and a fourth followed in rapid succession, causing the mystified man to jump and rush about in a greatly excited condition. He was quickly calmed, however, when the umbrella's proprietor handed it to him and told him to touch a small protuberance that appeared to be simply a part of the elaborate ornamentation. Then the fifth rocket ascended. "The show is over," said the returned traveler, "for you can only load the stick with five pieces of fireworks at a time. I paid $125 for the umbrella and 100 loads, but I think it is worth the money. The stick is, of course, hollow, and the ferrule is closed with a lid that works on a hinge. A detonating apparatus is worked by the pressure which you have just made on the handle and makes the spark which communicates with the miniature rocket. The whole thing is ingenious but simple when you come to understand it."—Philadelphia Inquirer.

An official stenographer of the German imperial parliament has calculated the exact rapidity of speech of some of the most celebrated German statesmen. Rickert, a leader of the free trade independents, he says, talks in a minute 153 words; Count Herbert Bismarck, 145; Singer, the Socialist, 121; Bamberger, the best known bimetallist among the independents, 129; Stumm, the coal baron, 148.

Deafness Can't Be Cured

By local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucus surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that we can not cure by taking Hall's Catarrh Cure. Send for circulars, free.

An important discovery. They act on the liver, stomach and bowels through the nerves. A new principle. They speedily cure biliousness, bad taste, torpid liver, piles and constipation. Splendid for men, women and children. Smallest, mildest, surest. 30 doses for 25 cents. Sample free at Tillson Hayden's. 1

Beggs' Family Medicines.

Beggs Diarrhea Balsam will cure any case of diarrhea, colic or dysentery, more quickly and effectually than any other medicine on the market. It is purely vegetable, and no one need fear giving it to the most delicate child, or the strongest of men. Try it and you will not be disappointed. Sold by

D. S. HORTON, Druggist.

A Fortunate Woman.

Mrs. Mary L. Baker, of Ovid Mich., has reason to be very thankful. She was a great sufferer from heart disease for years. Was short of breath, had *hungry spells*, pain in side, fluttering, faintness, etc. After taking two bottles of Dr. Miles' New Heart Cure, she says: "I am better than for 20 years. My mind and eyesight have improved wonderfully. I advise all persons thus afflicted to use this great remedy. Tillson & Hayden, druggists, recommend and guarantee it. Dr. Miles' work on Heart Disease, containing marvelous testimonials, free. 2

Forced to Leave Home.

Over 60 people were forced to leave their homes yesterday to call at their druggist's for a *free* trial package of Lane's Family Medicine. If your blood is bad, your liver or kidneys out of order, if you are constipated and have headache and an unsightly complexion, don't fail to call on any druggist to-day for a *free* sample of this grand remedy. The ladies praise it. Everyone likes it. Large-size package 50 cents. 3

Beggs' Family Medicines.

For blind, itching, or bleeding piles, Beggs' German Salve will relieve at once, and in time effect a permanent and lasting cure. It never fails. Price only 25 cents. Sold and warranted by

D. S. HORTON, Druggist.

Stanley's Great Book

The complete story of Stanley's recent thrilling adventures and the disclosure of his great discoveries will appear for the first time in the work written by himself, entitled "*In Darkest Africa.*" In two volumes, profusely illustrated; price $3.75 per volume. Sold only by subscription. Do not be deceived by any of the so-called "Stanley books" now being offered as "genuine" and "authentic." To no one of these has Stanley contributed a line.

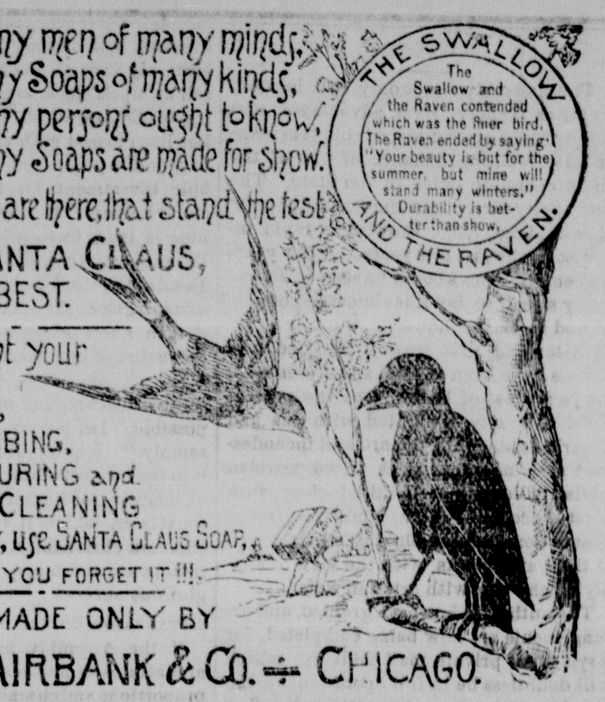

READY IN JULY.

AGENTS are now in the field taking orders, and the work will be published in July. Applicants should state experience. Remember that **Stanley's own book**, the only one in which he has a personal interest, will bear on the title page the imprint of

WEBSTER'S UNABRIDGED ANCIENT EDITION.

A so-called "Webster's Unabridged Dictionary" is being offered to the public at a very low price. The body of the book, from A to Z, is a cheap reprint, page for page, of the edition of 1847, which was in its day, a valuable book, but in the progress of language for over FORTY YEARS, has been completely superseded. It is now reproduced, broken type, errors and all, by photo-lithograph process, is printed on cheap paper and flimsily bound. A brief comparison, page by page, between the reprint and the latest and enlarged edition, will show the great superiority of the latter. These reprints are as out of date as a last year's almanac. No honorable dealer will allow the buyer of such to suppose that he is getting the Webster which to-day is accepted as the Standard and THE BEST,—every copy of which bears our imprint as given below.

☞ If persons who have been induced to purchase the "Ancient Edition" by any misrepresentations will advise us of the facts, we will undertake to see that the seller is punished as he deserves.

ABBREVIATED TELEGRAMS.

Fire in a Minneapolis business block Monday caused a loss of $50,000.

It is stated that the plate glass men of this country met in New York Monday and organized a trust.

There were forty fatal cases of sunstroke in Chicago in the forty-eight hours ended at noon Monday.

The great distillery plant of the Allen Bradley company, at Louisville, Ky., was destroyed by fire Monday. Loss, $150,000; fully insured.

Dock laborers in Chicago to the number of 750 are on strike for an advance of 5 cents an hour in wages, and all the large freight boats are tied up.

The annual statement of the Chicago, Burlington and Quincy railroad shows an increase in net earnings of $157,076.85 for May, and 987,710.39 for the year ended May 31.

The Norwegian bark Nordcap was burned at sea June 9, and lost six of her crew of nineteen men. The others were brought to New York Monday by the bark Athrence.

Jacksonville, Ills., is grumbling because, although the town is alleged to have grown steadily since 1880, the census enumerators have failed to roll up any increase of population.

The rescuing party at the Dunbar (Pa.) mine are still working to discover the victims of the recent disaster, but have not yet reached the pit where their bodies are supposed to be buried.

John L. Sullivan says that prize fighting has seen its best days in this country and that the business is practically dead. He will not fight again unless he is guaranteed against interference of the law.

K. G. Schmidt, a wealthy German brewer of Chicago, has gone on a European trip, taking his niece with him and leaving his wife at home. He did not tell Mrs. Schmidt of his intentions and that lady is awaiting developments.

James M. Dutton, a Chicago citizen, was awakened from sleep Sunday night by a burglar alarm and fired through a window at the supposed burglar. The bullet entered the window of a neighbor and killed the latter's daughter.

Eighteen men on the night force of the Western Union at New Orleans have resigned because of the heavy work without pay that is imposed on them. They have to work sometimes six hours overtime for which the company refuses to pay extra.

A well-borer named Starks has drilled a three-inch hole into a cliff on the Cumberland river, near Franklin, Ky., and at the depth of eighty-five feet struck a mine of honey. Since the strike was made tons of the sweet have been pumped out and shipped to Louisville.

DIXON.

The Assembly is not only well located, so far as scenery, river advantages, and accessibility are concerned, but it is within easy walking distance of one of the most energetic cities in the State. The recent city directory estimates the population at about 7,400, showing a rapid increase in the last few years. A few years ago empty houses could be seen on almost every street, to-day it is almost impossible to find an empty house in the city; notwithstanding that several hundred new houses have been erected and scores more are in process of building at the present time. The city is lighted with gas and electric lights, both the arc and incandescent systems being used. Two artesian wells are flowing at the milk factory, with most excellent water; and the Dixon Water Company are sinking another well at the water works, with the view of supplying the city with artesian water.

The authority has been granted, and arrangements are now being completed, for a system of private mail delivery, which will doubtless be in full operation by the meeting of the Assembly. Dixon has fine churches, excellent schools, and is "beautiful for situation." Besides Dixon is showing a most commendable interest in Rock River Assembly, and if the Assembly is not made a success, it will not be for the want of local interest and patronage.

LAST YEAR'S ASSEMBLY

was a pronounced success. It was largely an experiment; and, in the estimation of many, a very doubtful experiment. Yet the interest and attendance grew from the beginning to the close, and the last session was one of the most interesting and largely attended. Aside from the large residence which was used for transient lodgers, nearly or quite sixty tents were pitched on the grounds, and resembled the encampment of an army. While the expenses of the Assembly were large, yet the revenues from tickets and the sale of privileges met all expenses and left a small balance in the treasury. The quiet, restful Sabbath observance, without the desecration and confusion of the general public, was delightful, and commanded the warmest praise of all who hold the Sabbath as a day of rest and worship. Financially, socially, intellectually, spiritually and as a source of excellent recreation, the Assembly was universally voted a success; and what is still better its influences upon church and mission work have been richly blessed.

THIS YEAR'S ASSEMBLY

promises, if the season is favorable, to be much more successful than last year's. The indications are that the attendance, both locally and from abroad, will be very much larger. But what it will be, not only in attendance but in real enduring value to ourselves, our church, and the community, will depend largely upon the interest taken in it by the pastors and people of the Lutheran churches in this section. Therefore let every pastor in the Northern Illinois synods, arrange, if possible, to spend his vacation at the Assembly. It will do you good physically, mentally and spiritually, and you will return to your labors a stronger and more efficient workman. Besides, let every pastor commend the Assembly to his people and bring large delegations with him. It is for al; and all will be amply rewarded for the time and means spent in attending.

THE BENEFITS OF THE ASSEMBLY.

It will bring our church into greater prominence before the masses. It will cultivate a closer bond of fellowship between the pastors and members of our churches. It will awaken a more becoming church pride in our own household of faith, and it will bring us in communion with the most cultured, spiritual and efficient laborers in other parts of the Master's kingdom; whereby we will become richer in thought and method and better qualified for the work "which our hands find to do" in our own fields of labor.

Besides, it confers rich and lasting benefits upon the community in which it is held It stimulates mental, moral and spiritual culture, and leads to a higher and more useful life.

THE FUTURE ASSEMBLY.

The possibilities of the Assembly lie in ourselves. It will be just what we make it. And what we will make it no one can foretell. Suffice it to say that if it is a success this year, and we are able to secure a permanent and suitable location with suitable improvements, its future success will be guaranteed, and its power for good will far exceed our present conceptions. As the bursting bud does not display all the beauties of the full-blown rose, so the present formative state of the Assembly, with all its great promise, does not reveal to us its full power for future usefulness. With proper resources and local advantages its sphere will be greatly enlarged. It will become a summer school for the mutual improvement, and the higher education of teachers, educators and workmen in all the higher walks of life. Normal classes in music, art, bible-study, literature, history, Sunday School, and other important lines of work will doubtless be added; and the services of some of the ablest teachers and lecturers in the country will be employed. Hence the Assembly will become a great central focus from which will radiate forces that will quicken society into a purer, wiser and nobler life.

THE STOCK COMPANY.

A license has been secured from the Secretary of State to organize a stock company, with a capital of $10,000. The plan is to sell 400 shares at $25 per share. This stock to be assessed not more than fifty per cent. the first year, with the view of purchasing a location and making such improvements as may be necessary for present purposes. A considerable amount of stock has already been sold, and we earnestly urge all pastors and laymen to sell as much stock as possible before coming to the Assembly. The present location has been leased with the privilege of buying, and if purchased will prove a profitable investment for the Assembly and stock-holders. Real estate agents, if rumor is true, have offered even more for the property than has been agreed upon. Besides the stock-holders are offered other advantages in the way of season tickets, that in a few years would amount to the full value of one share of stock.

Let all, therefore, use all diligence to sell the full amount of stock as soon as possible. Let no one say "It is your Assembly." But let all say "It is ours." It is in the interest of our church, our homes, of morality, of higher culture, of the community in which it is held, and of our common christianity. Let us make common cause and move forward to a most glorious success.

ADVANTAGES OF THE ASSEMBLY TO DIXON.

If the Assembly becomes permanent, and attains in any reasonable degree the proportions and character which its founders contemplate, it will be a constant advertisement for the city. Every year the attention of the country for hundreds of miles away will be directed to Dixon, as the location of the Assembly; and large numbers of most excellent people, ministers, teachers, business men and others, will assemble here, annually, to enjoy the Assembly who will confer more or less patronage and other benefits upon the city. Many will doubtless find it to their interest to invest in Dixon property, and possibly to make it their future home. Secondly, it will afford the Dixon people an opportunity each season, to hear some of the most prominent speakers and educators in the country without going more than a few moment's walk from their doors, and that at very little expense. Thirdly, it will add another important factor to the moral, spiritual and intellectual forces that must give form and character to the moral, social and religious culture of our people in the future. And fourthly, it will afford many persons in feeble health, who need rest and recreation, but who have not the means to seek it abroad, an opportunity to enjoy a few days or weeks change or rest at the Assembly, under the most elevating and delightful influences, without much or any additional expense.

Therefore, we bespeak for the Assembly the most generous patronage and hearty co-operation on the part of the Dixon people, that it may become not only successful in a measure, but that the largest possible good may be accomplished.

Chickens for Japan.

New England enjoys an export trade with Japan in cocks and hens. I learn that a Boston fancier, noted for the excellence of his Hamburgs, has sent several consignments of them to this far away land, the birds making the journey by way of California, and costing the Japs about $10 apiece. Their beauty, it seems, is the quality which appeals to the Oriental imagination.—Boston Post.

Costly Naval Warfare.

The figures given for the cost of using the great ordnance led to a calculation that the Benbow, which carries two 110 ton guns and other smaller arms, would in two ordinary engagements use up guns and ammunition to the value of $650,000. A modern naval engagement on the scale which more than one nation is ready to engage in would cost many millions.—New York Telegram.

Sardou, the French dramatist, started out as a surgeon's assistant and became a professor of mathematics before he took up play writing.

Pure and rich, possessing all the nutritious properties of Malt, Chase's Barley Malt Whisky is a perfect Tonic for building up the system. Charles Plein, sole agent for Dixon.

1990 1073tf

H. E. Donaldson, the druggist, wishes to remind his patrons that it is a dangerous policy to wait until taken sick before buying a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Every family should be provided with some reliable remedy for bowel complaints, ready for immediate use, whenever required, during the summer months, and this remedy is unquestionably far superior to any other. It can always be depended upon, and is pleasant and safe to take. It is put up in 25 and 50 cent bottles.

The leading question now is: "Are you provided with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as a safe-guard against an attact of bowel complaint during the summer months? No family can afford to risk being without this invaluable medicine during the hot weather. It is almost certain to be needed, and is a friend indeed when required, as it never fails and is pleasant and safe to take. 25 and 50 cent bottles for sale by H. E. Donaldson.

LATEST FASHIONS

In gentlemen's suitings consisting of all kinds of fancy coatings and Cheviot cloth of the latest styles just received by

M. CAHILL,

HOUSE of fourteen rooms and large barns, corner of Main and Madison streets.
1790tf E. C. PARSONS.

$1500.

My offer of $100 has not been taken, nor would $1500. The fact is, there is no pump made that can compete with the COMBINED AIR and CISTERN PUMP, for purifying water when used in combination with my well, for cisterns, it will draw water from the well or cistern, thus saving an extra pump. The well is improved the water passes down below the bottom of the cistern through five feet of gravel and sand before entering the well, then upwards in the well through gravel, sand and charcoal, properly prepared and packed. This will keep the water cold, remove all live animal matter, and the well will not require to be repacked. How different from this is an ordinary well where the earth is the filter; there may be some dead reptile at the bottom of the well, or the water may contain poison. If water passing through the earth will become hard, adulterated with lime, why will it not hold filth poisonous mater in solusion. The well will be furnished at a reasonable price. Price of cistern pump at shop, $4 00. There should be an air pump in every cistern where there is a chain or suction pump, it will keep the water good. Price of air pump $1 00.

I make the following offer for 30 days: Will put in my Cistern, Well and Combined Air and Cistern Pump, and warrant it to furnish pure water, free from all live annimal matter, for $15. Will allow from $1.00 to $2.00 for chain pumps. A 1 cistern water contains live annimal matter; when one of these little annimals is magnified it is as large as a spider. They will do no harm when kept in the cistern and you do not drink them, but maybe very harmful when taken into the stomach. These little creatures are very lively when they have plenty of air but die for the want of it when the water become very offensive Pur ewater is assential to good health. Cholera and fevers of the most malignant kind have been traced to the drinking of impure water. If you still insist in having the chain pump I can furnish them to you for $1.00 to $2.00; I make a specialty of putting in cisterns. All work warranted.

E. EMMERT, Dixon, Ill.
Dixon, June 24, 1890.

I have one of Emmert's Air Pums. I would not sell it at any price if I could not get another. No family can afford to drink poor water.

J. A. YATES.
Dixon, June 24, 1890.

I have one of Emmert's Air Pumps; I am converted and think anyone else would be to see how quick it cleans and sweetens the water in the cistern. There ought to be one in every cistern.

ALEXANDER TURNER
Dixon, June 27, 1890.

We have Emmert's system of water works. Come and take a drink of the sparkling water taken from the well and you will be convinced it is the article you want. We think it just perfect.

F. M. & H. D. COURTRIGHT.

STEAM CITY LAUNDRY

Main Street West of Peoria.

NOW IS THE TIME TO PURCHASE YOUR

CLOTHING

AT AN IMMENSE BARGAIN!

WE HAVE purchased at nearly fifty cents on the dollar about Five Thusand Dollars worth of first-class goods from the stock of Austrian, Wise & Co., of Chicago, whose recent retirement from business rendered their sale imperative. This is no job lot, nor ordinary bankrupt stock; but they are all straight goods from a well-known firm, newely made up for the present season's trade; and we will give our customers the benefit of the fortunate bargain we have made in their purchase.

COME AT ONCE AND SEE THE GOODS

And make an early selection, as, at our wonderfully low prices they will not remain long on our counters Suits which cost you last year $18.00 we will now sell you for Twelve Dollars and Fifty Cents.
